

California's Fisheries and Wildlife and Offshore Wind

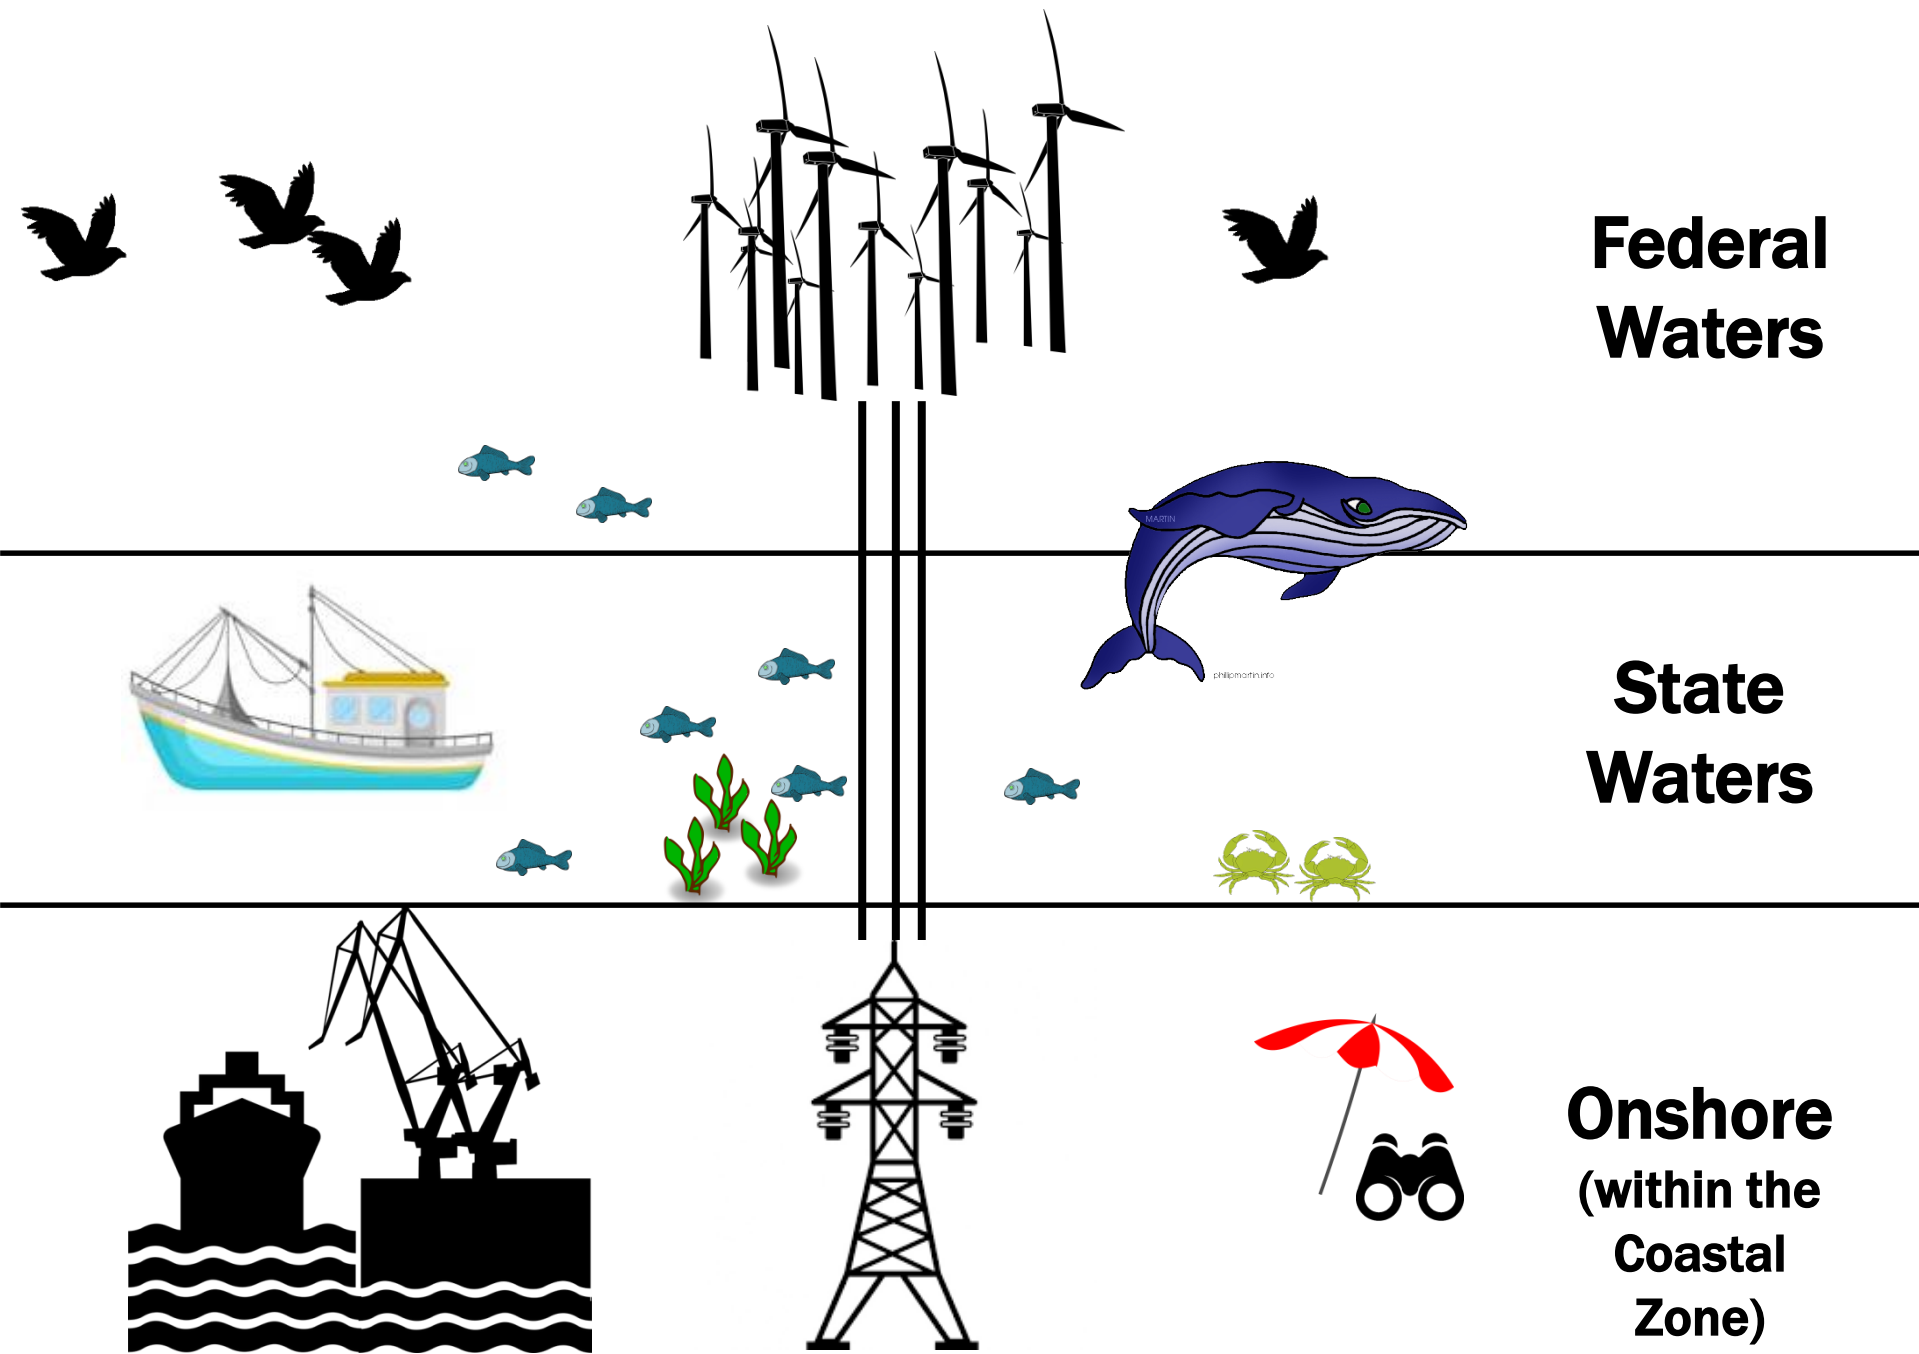

Kate Huckelbridge, PhD
California Coastal Commission

The California Coastal Act

Key Coastal Act Issues applicable to offshore energy projects:

- **Marine species and habitat, water quality**
- **Fishing – Commercial and Recreational**
- **Public access and recreation**
- **Navigation and Hazards**
- **Coastal Public Views**
- **Tribal and cultural resources**

Addressing Impacts to California's Fisheries and Wildlife

- **General approach:**
 - Avoid
 - Minimize & Mitigate
- **Current activities**
 - Collect and analyze environmental data
 - Develop a thorough and transparent regulatory process
 - Stakeholder outreach and collaboration

Next Steps

- **Preparing for a federal consistency determination prior to a lease sale**
- **Development of mitigation and monitoring strategies**
